

# NOBLE ACADEMY FIELD TRIP AUTHORIZATION

Field trips will be planned for the students throughout the school year. These trips are a special part of the school experience and will provide an opportunity for enrichment and learning outside the classroom.

School staff and other responsible adults will always accompany the students on these trips. The staff, parents, other volunteer drivers, or a bus company will provide transportation.

Parents will receive written notification prior to each trip giving the destination, the date, and times of departure and return. If you do not want your child to participate on a particular trip, you must inform the school in writing. Otherwise your child will be taken on each trip and this statement, with your signature, will be our authority.

If you would like to have your child participate with their class on field trips during the current school year, please fill in the appropriate information and sign below.

I hereby authorize my child \_\_\_\_\_, grade \_\_\_\_\_, to take part in field trips planned for the current school year under the supervision of Noble Academy. I understand I will receive written notification prior to each trip. I also understand that if my child is on medication during the regular school day, they will be given the prescribed medication on the field trip.
