BUILDING GREAT FUTURES

Health & Safety Guidelines
On-Campus Learning
An Overview
2021-2022

Noble Academy Health & Safety Guidelines for On-Campus Learning

<p>Physical Distancing</p> 	<p>Classrooms have been set-up so all student desks are at least 3 feet apart. Most Upper School classrooms have stayed at 6 feet, and most Lower School classrooms are closer to 4 feet. Given the size of Noble Academy our hallways are typically not very crowded, so the hallways are not set-up for physical distancing. Signs will be posted and reminders will be verbally given to remind students to physically distance when possible.</p>
<p>Lunch</p> 	<p>The Cafe will continue to be set-up with chairs 6 feet apart. Lower & Middle School students will utilize the Cafe for lunch. Middle School students will also have the option to eat outside. High School students will eat outside, weather permitting, and inside the Cafe or their advisor's classroom during inclement weather.</p>
<p>Face Coverings</p> 	<p>Face coverings are required when students are inside of a Noble Academy Building or Noble Academy transportation. Face coverings will not be required outside.</p>
<p>Cleaning</p> 	<p>Classrooms will be cleaned, by teachers, with a CDC approved disinfectant throughout the day, though not between every class. Students who prefer a cleaned desk may request one if their desk hasn't been cleaned during transition times. Bathrooms will be cleaned at least once daily. The recommendations from NCDHHS do not include the extensive cleaning from the 20-21 school year.</p>

Noble Academy Health & Safety Guidelines for On-Campus Learning

<p>Personal Hygiene</p> 	<p>Students will be encouraged to use hand sanitizer before entering any classroom or play space. Students will be required to wash or sanitize their hands prior to and immediately after lunch and recess. Students will also be trained in hand and respiratory hygiene and this will be reviewed often.</p>
<p>Screenings</p> 	<p>Families and employees are asked to self-screen at home prior to coming to school. Noble Academy will no longer be taking temperatures or asking screening questions of students, employees or visitors.</p>
<p>Visitors</p> 	<p>Non-essential visitors will not be allowed inside the Noble Academy buildings. Parents may not move past the lobby without an appointment.</p>
<p>Shared Materials</p> 	<p>Shared materials will no longer be limited. However, wherever possible students will receive their own materials and teachers will disinfect materials after use. Students will also have access to hand sanitizer in each classroom to use when utilizing any shared materials.</p>
